| Caves        | can  | be      | home                       |
|--------------|------|---------|----------------------------|
| to           | a    | variety | of                         |
| creatures    | such | as      | bats,                      |
| salamanders, | and  | insects | •<br>©www.freewordwork.com |

| People | have | been      | exploring                           |
|--------|------|-----------|-------------------------------------|
| caves  | for  | thousands | of                                  |
| years, | and  | some      | have                                |
| turned | into | tourist   | attractions.  ©www.freewordwork.com |

| Exploring | caves       | requires | special               |
|-----------|-------------|----------|-----------------------|
| gear      | such        | as       | helmets               |
| and       | flashlights |          |                       |
|           |             |          | ©www.freewordwork.com |

| The    | temperature | inside  | a                              |
|--------|-------------|---------|--------------------------------|
| cave   | is          | usually | cooler                         |
| than   | outside,    | making  | it                             |
| a cool | place       | in      | summer.  ©www.freewordwork.com |

| Caves  | can      | be     | dangerous,            |
|--------|----------|--------|-----------------------|
| with   | hazards  | like   | loose                 |
| rocks, | steep    | drops, | and                   |
| narrow | passages | •      | ©www.freewordwork.com |

| Some   | caves  | have     | underground           |
|--------|--------|----------|-----------------------|
| rivers | and    | lakes    | that                  |
| can    | be     | explored | by                    |
| cave   | diving | •        | ©www.freewordwork.com |

| Caves      | have    | been     | important             |
|------------|---------|----------|-----------------------|
| to         | humans  | for      | shelter,              |
| storage,   | and     | cultural | purposes              |
| throughout | history | •        | ©www.freewordwork.com |
