

Some

believe

that

Barnum

Brown

is

one

of

the

greatest

dinosaur

hunters

of

the 19th and
20th

centuries

.

Dinosaurs

who

were

carnivores,

or meat
eaters,

often

swallowed

their

food

whole

instead

of

chewing

and then

swallowing

.

Herbivores,

or plant-
eating

dinosaurs,

would

swallow

small

stones

to

help

their

stomachs

grind

the

vegetation

they ate

.

Wow!

The

microraptor

was

a

tiny

carnivore

that

weighed

only

two

pounds

!

Birds

are

feathered

dinosaurs

that

are

the

only

creatures

to

have

survived

the

mass
extinction

event

.

Sir Richard
Owen

was

the

first

scientist

to

use

the

name

dinosaur

which

meant

terrible

lizard

or reptile

.

Did

you

know

that

ptero
dactyls

were

not

dinosaurs

but

lived

during

the

same

time

period

?

Mary

Anning

was

born

in

1799

in

England

and

became

known

for

her

fossil

discoveries

.

Dinosaurs

roamed

the

earth

for

over

165

million

years

.

The Great
Dinosaur Rush,

or Bone
Wars,

occurred

when

Edward
Drinker Cope

and

Othniel
Charles March

battled

to

become

the

most

successful

paleontologist

.
