

## Space Words

asteroid	gravity	rover
astronaut	Jupiter	satellite
astronomy	light year	Saturn
atmosphere	lunar	shooting star
aurora	Mars	shuttle
axis	mercury	solar flare
black hole	meteor	solar system
comet	Milky Way	space
constellation	moon	space station
crater	nebula	space suit
dawn	Neptune	spacecraft
daytime	new moon	star
dusk	night sky	sun
dwarf planet	northern lights	telescope
earth	orbit	twilight
eclipse	phase	universe
explore	planet	Uranus
full moon	Pluto	vacuum
galaxy	radiation	Venus
gas giant	rocket	zero gravity
